

Lisa Woodhouse: SAHO's offer very unfair
February 19, 2010

I am a CUPE member and I work for home care. SAHO's final offer is outrageous!

I have worked for home care when split shifts were the usual days. We as CUPE members fought hard for equality, and parity with other health care workers. So giving up all the things we have worked so hard towards is ridiculous.

I, as a home care worker, am just as important as everyone else and should not have our own set of rules. I think this final offer by SAHO is very unfair not only to a small group of us, but to our whole local.
