

Sharon Salikin: Disband SAHO

The SAHO and Saskatchewan Government bargaining demands are a slap in the face to health care providers across Saskatchewan. They deem us essential but on the other hand treat us as non-essential. Their demands are disrespectful to front line workers and they should be ashamed, but instead they place ads to the public which are out and out lies.

The public should need to know about this if we are to acquire a collective agreement.

SAHO should be disbanded and CUPE should deal directly with the Government of Saskatchewan. The money spent on paying the SAHO Board would give us our collective agreement.

Stay strong. I am behind the bargaining committee 100% - whatever it takes.

In Solidarity!
